Happy Birthday

To You!

Happy birthday   Nithya the day you come into my life I was not really much attached to you but day by day you became close to my heart . And now you are truly my best friend. I wish I could remove some of the pain from your life which you are bearing alone. But you're always welcome  you can talk anytime you want to talk specially those which you can't say to others. And this year your all dreams come true . I wish that your boy friend could wish you but if couldn't wish on him behalf I am wishing you happy birthday Nithya   . Don't be Sad ok be happy
